Re: Registration of Sanitarians—Notice of Cancellation

Dear Ms. Youst:

Effective January 1, 2013, Professional Examination Service (PES) will no longer support the Registered Sanitarian Examination program. The basis of this decision is financial. Due to the limited number of jurisdictions utilizing the examination, it is no longer feasible for PES to continue to offer the program.

PES shall continue to provide examination booklets and scoring information through December 31, 2012.

If you have any questions, please feel free to contact me at 212.367.4205 or email me at [speluso@proexam.org](mailto:speluso@proexam.org).

Steven T. Peluso, Esq.

Jordan –

The Board reviewed your request at the meeting on July 25, 2012.

After reviewing the information submitted, the Board was unable to make a determination on your request. If you would like to submit a formal request for review of the internship for continuing education credit, you will need to complete a CE2 application, provide a copy of the internship syllabus/agenda/itinerary, and provide proof of completion. You must also provide information on the specific education component of the internship as it relates to your work in environmental health.

Sorry for the delayed response. Please feel free to contact me if you have any other questions. Have a nice day!

Hello Steph!

Thank you for getting back to me so quickly.

I was able to get a copy of the internship job announcement from my supervisor to forward on to you. I thought this might help give the Sanitarian Board a little bit better idea of what the internship entails. This is a 40hr per week internship. I should be receiving my certificate from Columbus for the Primary Headwater Habitat Assessment Training soon and when I do I will forward that onto you as well.

Thank you again for your help I appreciate it!

**Subject:** Continuing Education Credits

Hello Mrs. Youst,

My name is Jordan Senne, I am a Registered Sanitarian in the State of Ohio #3518. I am currently interning with the Ohio Environmental Protection Agency in the Division of Surface Water-Storm Water Unit. I am wondering if there is a possibility of my internship experience being used toward my required 18 hour CE credits for recertification?

The internship entails performing evaluation of NPDES permitted sites to ensure that facilities are incorporating appropriate measures to prevent storm water run-off and subsequent stream pollution. This past week we also completed training in Columbus on Primary Headwater Habitat Assessments.

I know the Sanitarian Board is planning to meet in July so I wanted to touch base with you before then to see if this was a possibility.

Thank you for your help and if there is any additional information that I can provide please let me know.

Sincerely,

Jordan Senne RS
